

ELEMENT'S SUSTAINABLE VISION

HOW WE'RE STRIVING TO BE A BETTER BAR...

Element's vision for sustainability is to leave things better than how we find them. We strive towards zero waste & being carbon neutral wherever possible... Our aim is to only leave behind happy memories and a happy planet.

To do this, we source the best quality product we can from known suppliers and producers who share a similar vision. Our goal for 2022 is to increase our recyclable waste to 80% and to generally just become better people.

We endeavour to be as green as we can at Element and this runs through every aspect of our business. If it's not us working hard in the bars, then it's our work with our brewery Cold Town Beer where every new beer follows the Brew Blue, Go Green initiative.

We are staying away from the big companies that hate grass and think that bees are just fat wasps. Instead we'll be supporting local businesses and small batch distilleries who have a great story, a great heart and a fantastic product... All this whilst also helping boost the economy!

Team Element x

Bar Bites
